

FACULTY OF AGRICULTURAL SCIENCES
AARHUS UNIVERSITY

STUDY ABROAD PROGRAMME 2011-2012

AGRICULTURE, FOOD, ENVIRONMENT AND TECHNOLOGY

WHAT IS THE STUDY ABROAD MSc SEMESTER PROGRAMME?

The Study Abroad programme at the Faculty of Agricultural Sciences offers semester course packages taught in English that give you 30 ECTS/15 US credits. This provides you with the possibility of earning credits in Denmark in the company of students from around the world – including Danish students – towards your degree at home. If you are enrolled in one of Aarhus University's partner universities and apply as an exchange student, there is no tuition fee.

You can choose from a range of nine different programmes at the Master's level in either the Fall or the Spring semester. The Study Abroad programme comprises a comprehensive choice of top-quality research-based courses gathered in thematic subject packages.

Each semester package is organised around current and central research themes and consists of 2-4 courses and the option of an individual research project.

STUDY ABROAD SEMESTER PACKAGES

- Agroecology under Global Change
- Ecosystem Analysis and Management
- Bioenergy Technologies
- Biosystems Engineering – Automation
- Animal Health and Welfare
- Sustainable Animal Nutrition
